Forecast for Thursday 22 Oct 2020

Weather: Dull and cloudy with outbreaks of rain or drizzle, heaviest across central and western fells. These will die out late in the afternoon then a dry evening with clear spells.

Chance of cloud free mountain/hill tops above 800m: Zero chance for most of the day. Cloud extensive down to 300 or 400m in the morning, bases slowly rising during the afternoon with most summits cloud-free by evening.

Visibility: Very poor on high slopes for most of the day and hazy below the cloud base. Slowly improving late afternoon onwards, becoming good by evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A significant wind chill on the tops with strong winds, low cloud and damp conditions for most of the day.

Forecast for Friday 23 Oct 2020

Weather: A band of rain will move east across all parts in the morning, heavy at times. Brighter from mid to late morning with sunny spells and scattered showers, falling as sleet on the high fells. The showers dying out in the evening.

Maximum wind: South 25mph, gusts 40mph early morning, soon becoming West or SW 15-20mph, gusts 30mph.

Chance of cloud free mountain/hill tops above 800m: 20% early morning with extensive cloud down to 400m but soon becoming 80% with just patchy cloud above 600m.

Visibility: Poor at first with low cloud. Becoming good at most elevations as cloud lifts during the morning with just brief reductions in showers.

Temperature: **Valleys:** Plus 7C rising to 9C.
At 800m: Plus 3C.
Freezing level: Just above the highest tops.
